

## Advantage Tennis 6

### Features & Benefits:

- Specifically designed for tennis courts
- Tight mesh apertures eliminates tennis ball loss and increased ball retention
- Supplied with EPDM inserts and fixings to reduce noise caused by ball impacts
- Open mesh design gives provides better viewing for spectators
- No solid surface for graffiti
- Low maintenance with rigid mesh pattern that will not deform like chain-link fencing
- Difficult to cut for vandals
- Available either bolt down, in ground or on wall

### Applications:

-  Civic & Public Sector
-  Schools & Education
-  Sport & Leisure

### Description:

Zaun's **Advantage Tennis 6** tennis court fencing system is designed to withstand heavy use whilst still maintaining easy viewing of the on court action. The **Advantage Tennis 6** system uses a 42.85mm x 200mm twin wire mesh, which results in an extremely durable tennis court perimeter and enhances the area in which it is situated. The 42.85mm x 200mm mesh also means that there is no chance of the tennis ball passing through the fence, increasing ball retention and gameplay. The twin horizontal wires also ensure that the court could be used for other high impact sports like football to increase the court usability. The **Advantage Tennis 6** system uses EPDM rubber inserts at every fixing to reduce noise and eliminates rattle during play. A full length clamp bar covers the panel ends to ensure a safer playing surface with no sharp edges.

Traditionally, chain-link fencing is used for tennis courts, which is a classic example of how the lowest cost solution does not equal the best value. Easily cut with pliers, people gain access out of hours by snipping the fence, encouraging inappropriate use of the courts and making them an eyesore. The **Advantage Tennis 6** systems rigid design ensures that not only is it difficult for vandals and intruders to gain access, but unlike chain-link fencing **Advantage Tennis 6** Does not deform with continuous play or when people lean or push against it.

## Details:

A minimum height of 2.43 metre to a maximum height of 6.0 metres – Advantage Tennis 6 Sports Fencing

### Mesh:

Advantage Tennis 6 mesh comprising 42.85mm x 200mm mesh with dual 6mm horizontal wires at 200mm centres with single 5mm vertical wires at 40mm centres

### Posts:

Various RHS sports posts sizes dependent on height (see chart below for details), spaced at 2525mm centres

### Post to panel fixing:

Panels fixed to posts with full height 40mm x 5mm clamp bar with bolt fixings at 200mm centres with EPDM inserts. The full height clamp bars create a flush safe finish with the mesh ends behind the clamp bar.

### Gates:

Pedestrian gates are single leaf 1.2m wide, (or width to suit), framed in a 50mm x 50mm RHS with Zaun Advantage Tennis 8 mesh welded inside the frame, with slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Vehicle access gates are double leaf (single leaf vehicle gates available) 3.0m wide (or width to suit), framed in 50mm x 50mm RHS, with Zaun Advantage Tennis mesh 8 welded inside the frame, with drop bolts and slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

### Finish:

Materials are galvanised and Polyester Powder coated.
