

Gemini Surf Clamp

Features & Benefits:

- Based on the Duo twin wire mesh system to provide high visibility, strength and rigidity
- Supplied with an attractive surf style feature topping
- Attractive and aesthetically pleasing mesh system
- The Gemini range is ideal as a feature fence to enhance aesthetics
- Soft ornate fencing without harsh edges
- Supplied with anti-tamper fixings
- Available with optional ball finials
- Available either bolt down, in ground or on wall

Description:

Possibly the most attractive fencing system on the market, **Gemini Surf** features a curvaceous style which has the ability to break up rigid fence lines. **Gemini Surf** is perfect for areas that are aesthetically sensitive or which are on show to the public or customers.

Based on the twin wire Duo system, **Gemini Surf** uses twin horizontal wires to sandwich the vertical wires. Anti-tamper fixings and ball finials combine to make this system both attractive and secure. Due to its strength and great looks, **Gemini Surf** fencing is ideal for housing projects, schools and prestige projects where the fence needs to be a feature as well as a boundary.

Gemini Surf can be supplied in heights of up to 6 metres, measured at post height, so the panels may exceed that height at the centre of the panel. **Gemini Surf** is the latest development in the Gemini range. It has been designed to better accommodate changes in ground level while retaining the effect of the wave. This has been achieved by designing a fence panel in which the top and bottom of the waves are less pronounced.

Applications:

-  Civic & Public Sector
-  Health & Emergency Services
-  Industrial
-  Residential & Commercial
-  Schools & Education
-  Transport & Infrastructure

Details:

Minimum height of 830mm to maximum height of 6.0 metres – Gemini Surf Perimeter Fencing

Mesh:

Duo6 mesh comprising 200mm x 50mm mesh with single 6mm wires, vertical wires are at 50mm centres, dual 6mm horizontal wires at 200mm centres.

Posts:

Various RHS posts sizes dependent on height (see chart below for details), spaced at either 2525mm centres

Post to panel fixing:

Panels fixed to posts with full height 40mm x 5mm clamp bar with bolt fixings at 400mm centres. The full height clamp bars create a flush safe finish with the mesh ends behind the clamp bar.

Gates:

Pedestrian gates are single leaf 1.2m wide, (or width to suit), framed in a 50mm x 50mm RHS with Zaun Duo8 mesh welded inside the frame, with slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Vehicle access gates are double leaf (single leaf vehicle gates available) 3.0m wide (or width to suit), framed in 50mm x 50mm RHS, with Zaun Duo8 mesh welded inside the frame, with drop bolts and slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Finish:

Materials are galvanised and Polyester Powder coated.
