Description:

The **Zariba 8 Clamp** is designed using an ornate ring top design and optional finials making **Zariba 8 Clamp** one of the most attractive mesh fencing systems on the market. The system uses an attractive ring top and the mesh pattern has been specifically designed to generate a pleasing appearance. Twin horizontal 8mm wires mean that the system is incredibly strong and can be used in areas where the system is likely to incur regular impact. The use of bright colours sets the fence off, making an attractive feature in any space.

Zariba 8 Clamp combines the robust Duo8 platform and a ring top design to provide an extremely durable segregation fence with a contemporary feel. Each panel is fixed to the post using a full length clamp bar which adds security and strength to the fence line.

Details:

Minimum height of 600mm to maximum height of 2.4 metres, in increments of 200mm – Zariba Clamp Perimeter Fencing

Mesh:

Duo8 mesh comprising 200mm x 50mm mesh with single 6mm wires, vertical wires are at 50mm centres, dual 8mm horizontal wires at 200mm centres.

Posts:

Various RHS posts sizes dependent on height (see chart below for details), spaced at 2525mm centres

Post to panel fixing:

Panels fixed to posts with full height 40mm x 5mm clamp bar with bolt fixings at 400mm centres. The full height clamp bars create a flush safe finish with the mesh ends behind the clamp bar.

Gates:

Pedestrian gates are single leaf 1.2m wide, (or width to suit), framed in a 50mm x 50mm RHS with Zaun Duo8 mesh welded inside the frame, with slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Vehicle access gates are double leaf (single leaf vehicle gates available) 3.0m wide (or width to suit), framed in 50mm x 50mm RHS, with Zaun Duo8 mesh welded inside the frame, with drop bolts and slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Finish:

Materials are galvanised and Polyester Powder coated.
