### Features & Benefits:

- Reduces noise and rattle caused by ball impact with EPDM inserts and fixings every 400mm
- 50mm x 200mm open mesh increases visibility to ensure there are no hiding places for the safety of players
- Twin wire structure provides a rigid strong mesh panel that is low maintenance and provides no solid surface for vandals
- Continuous panel without mid-rails to injure players
- Supplied with standard or minimal projections at the top of the panel
- Available either bolt down, in ground or on wall
- Goal and basketball ends also available

### Description:

Zaun's **Duo8 Sports Lite** is another development from the popular Duo range, offering the best economic solution by using fewer materials in the construction.

**Duo8 Sports Lite** offers a lighter weight, lower cost alternative to Duo8 Sports fencing. The Lite version uses the same rubber inserts used in the standard Duo8 Sports system and the panels are fixed to the posts every 400mm as opposed to every 200mm. This is ideal for situations where the noise from ball impacts is not likely to cause a problem with local residents. This lightweight panel keeps costs to a minimum, but the dual horizontal wires welded either side of the verticals ensure that the system retains the high level of rigidity necessary for ball courts.

Fixings every 400mm makes **Duo8 Sports Lite** the most economical sport solution available. A clamp bar covers the panel ends so no sharp edges are exposed.

## Details:

Minimum height of 630mm to maximum height of 6 metres – Duo8 Sports Fencing

### Mesh:

Duo8 mesh comprising 50mm x 200mm mesh with dual 8mm horizontal wires at 200mm centres and single 6mm vertical wires at 50mm centres

### Posts:

Various RHS post sizes dependent on height (see chart below for details), spaced at 2525mm centres

### Post to panel fixing:

Panels fixed to posts with full height 40mm x 5mm clamp bar with bolt fixings at 400mm centres with EPDM inserts. The full height clamp bars create a flush safe finish with the mesh ends behind the clamp bar.

### Gates:

Pedestrian gates are single leaf 1.2m wide, (or width to suit), framed in a 50mm x 50mm SHS with Zaun Duo8 mesh welded inside the frame, with slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Vehicle access gates are double leaf (single leaf vehicle gates available) 3.0m wide (or width to suit), framed in 50mm x 50mm SHS, with Zaun Duo8 mesh welded inside the frame, with drop bolts and slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

### Finish:

Materials are galvanised and Polyester Powder coated.
