us/downloads/drawings/](http://www.zaun.co.uk/about-us/downloads/drawings/)

Features & Benefits:

- Designed specifically for hockey pitches & reduces cost in comparison to replacing wooden boards
- Manufactured with 200mm of additional twin wire mesh at the bottom of each panel where most ball impacts occur
- Each system is supplied with EPDM inserts and fixings every 200mm to reduce noise from ball impacts from 97dB to 68dB
- Open mesh formation ensures maximum visibility for spectators
- Increases ball retention within the game play area

Description:

Zaun's **Hockey 200** has been developed specifically with hockey in mind. Zaun's **Hockey 200** fencing system overcomes the problems with traditional wooden board fencing, which is expensive, needs replacing and creates a lot of noise during play. The **Hockey 200** fence system uses twin wire 8mm wires in a close 25 x 50mm mesh pattern to clad the lowest 210mm of the fence.

This results in an extremely robust section of fence that is able to withstand the cannonball-like impacts that occur during a game of hockey. Measured under the same conditions the noise from ball impact on traditional hockey boards was 97dB, while Zaun **Hockey 200** fencing produced a noise of only 68dB.

Fixings every 200mm and synthetic rubber inserts at each fixing virtually eliminate rattle during play. A clamp bar covering the panel ends ensures a safe playing surface with no sharp edges.

Details:

Minimum height of 430mm to maximum height of 6.0 metres – Hockey Sports Fencing

Mesh:

Hockey mesh comprising 200mm of 25 x 50mm mesh and 200mm x 50mm Duo8 mesh above with single 6mm vertical wires 50mm centres and dual 8mm horizontal wires at 200mm centres.

Posts:

Various RHS sports posts sizes dependent on height (see chart below for details), spaced at 2525mm centres

Post to panel fixing:

Panels fixed to posts with full height 40mm x 5mm clamp bar with bolt fixings at 200mm centres with EPDM inserts.

The full height clamp bars create a flush safe finish with the mesh ends behind the clamp bar.

Gates:

Pedestrian gates are single leaf 1.2m wide, (or width to suit), framed in a 50mm x 50mm RHS with Zaun Hockey 200 mesh welded inside the frame, with slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Vehicle access gates are double leaf (single leaf vehicle gates available) 3.0m wide (or width to suit), framed in 50mm x 50mm RHS, with Zaun Hockey 200 mesh welded inside the frame, with drop bolts and slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Finish:

Materials are galvanised and Polyester Powder coated.
