

HiSec Super6 DualFix

Features & Benefits:

- Designed with thicker 6mm vertical wires to eliminate the need for a double skin 358 mesh system and reduce attack effectiveness
- Increased security with a single panel system and improves installation time
- Manufactured to the traditional 358 mesh pattern regularly associated with prisons
- The tight welded mesh offers no climbing aids and mitigates attack by hand and powered tools
- Open mesh pattern provides excellent visibility
- Single panel heights can be supplied of up to a maximum of 5.2 metres
- Panel is flush to the post and fixed to posts using a dual fixing full length clamp bar

Description:

HiSec Super6 DualFix has been developed in consultation with the Home Office as our premier high security system, aimed at high profile and sensitive sites requiring the greatest perimeter protection. It is based on HiSec, but is even stronger, presenting a formidable barrier to anyone trying to gain unauthorised access. The 4mm horizontal wires remain the same however the vertical wires in HiSec Super6 comes with 6mm diameter and 76.2mm spacing.

The **HiSec Super6 DualFix** system is fixed to the post using a full length clamp bar with overlapped panels for added strength and security. A 80mm plate clamp bar and non-removable external fixings leave no weakness in the fence line. Slotted fixing holes ensure installation is easy and leaves a neat, flush fitting.

In spite of all this, HiSec Super6 presents a value solution that negates the need for a double skin system.

Applications:

-  Civic & Public Sector
-  Health & Emergency Services
-  High Security
-  Industrial
-  Schools & Education
-  Transport & Infrastructure
-  Utilities

Details:

Maximum height of 5.2 metres, HiSec Super6 DualFix Perimeter Fencing

Mesh:

HiSec Super6 mesh comprising of 76.2mm x 12.7mm mesh with single 6mm vertical wires at 76.2mm centres and 4mm horizontal wires at 12.7mm centres.

Posts:

Various RHS post sizes dependent on height (see chart below for details), spaced at 2525mm centres

Post to panel fixing:

Panels fixed to posts with full height 80mm x 5mm clamp bar with bolt fixings at 400mm centres. The full height clamp bars create a safe finish with the mesh ends behind the clamp bar.

Gates:

Pedestrian gates are single leaf 1.2m wide, (or width to suit), framed in a 100mm x 50mm RHS with Zaun HiSec Super mesh bolted onto the frame using the Zaun picture frame design, with slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Vehicle access gates are double leaf (single leaf vehicle gates available) 3.0m wide (or width to suit), framed in 100mm x 50mm RHS, with Zaun HiSec Super mesh bolted onto the frame using the Zaun picture frame design, with drop bolts and slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Finish:

Materials are galvanised only or galvanised and polyester powder coated.
