### Description:

The unique Barcode railing system, designed and manufactured by Zaun, has been developed from the standard vertical bar railing range. This Barcode Railing system provides architects and specifiers with a unique perimeter fencing solution that can be custom designed to spell out a word, when using a barcode scanner. Simply hold up your phone or tablet to scan the fence to reveal coded message.

The Barcode Railing vertical bar systems are a stylish and robust solution to both perimeter security and property demarcation, manufactured with various vertical bar tubes, depending on the desired word and available in your choice of colours.

Available up to 2.0m for perimeter security and various finials can be added to the posts. Both swing and sliding gates are available to match the railings and can be manufactured to the width you require.

## Details:

Heights of between 0.5 metres and 2.0 metres – Barcode Vertical Bar Railings

### Railing Bars:

Vertical bars are manufactured to various thicknesses between 12mm and 20mm depending upon the desired wording. Horizontal bars at the top and bottom of the panel.

### Posts:

Various square hollow section (SHS) posts sizes dependent on height (see chart below for details), spaced at 2760mm centres, available with either in-ground, bolt down or cranked installation options

### Post to panel fixing:

Barcode Railing vertical bar panels are fixed to the posts using slotted cleats, cup square bolts and shear off nuts. Mid panel feet are supplied to support the panel and prevent sagging. Each post can be supplied with either in ground, bolted or cranked options.

### Gates:

Pedestrian gates are single leaf 1.2m wide (or width to suit), framed in a 50mm x 50mm SHS with Barcode Railing vertical bar style railing infill, supplied with a slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Vehicle access gates are double leaf (single leaf vehicle gates available) 3.0m wide (or width to suit), framed in a 50mm x 50mm SHS with Barcode Railing vertical bar style railing infill, with drop bolts and slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

### Finish:

Materials are galvanised and Polyester Powder coated

### Post Finials:

Available with or without finials

### Options:

Each panel can be customised to spell out a word to be used with a barcode scanner
